

VISN 20 Clinical Resource Hub (CRH) PGY-2 Ambulatory Care Residency

ABOUT THE PROGRAM

Program Purpose:

PGY2 pharmacy residency programs build upon Doctor of Pharmacy (PharmD) education and PGY1 pharmacy residency training to develop pharmacist practitioners with knowledge, skills, and abilities as defined in the educational competency areas, goals, and objectives for advanced practice areas. Residents are prepared for advanced patient care or other specialized positions, and board certification in the advanced practice area.

Vision Statement:

Our CRH residency training experiences will provide the diverse perspective of care delivery across multiple VA Health Systems to produce inquisitive Clinical Pharmacist Practitioners with virtual care expertise who set the standard for effective and flexible healthcare delivery to underserved Veteran populations.

WHAT IS THE CRH?

The CRH is a VISN-owned and governed program that provides support to increase access to VHA clinical services for Veterans when local facilities have gaps in care or service capabilities.

In the VISN 20 CRH, there are currently 16 Clinical Pharmacist Practitioners, 2 Outpatient Clinical Pharmacists, and 2 Clinical Pharmacy Technicians serving Veterans in all 8 VA Medical Centers.

PROGRAM LOCATION

Currently Boise, Idaho
Every effort is being made to allow virtual participation in this novel program to ensure equitable access to quality PGY2 Am Care training.

Application via PhORCAS due January 09, 2023

NMS Code: 662765
